ENVIRONMENT AND ENERGY USAGE POLICY

The Government College of Commerce and Economics, Borda-Margao is committed to the cause of protecting the environment and initiating measures to reduce the carbon footprint. Protection of environment and energy conservation is a core focus of the Institution. The Environment and energy usage norms specified in this document are binding on all the stakeholders of the College.

Policies:

- To create awareness about environmental protection through organization of various activities.
- To reduce energy consumption.
- To use LED lighting in the campus.
- To shut down all IT systems after use.
- Fans/lights in the classrooms and corridors to be switched off as soon as the class is vacated.
- To reduce air pollution and save fuel by promoting the use of electric and environment friendly vehicles.
- To install signages in the classrooms/campus extolling students to switch off lights and fans when they exit the classroom.
- To use energy generated through solar panels.
- To green the campus.
- To minimize and eliminate use of plastic on campus.
- To encourage students to engage in activities aimed at environmental protection.
- To make conscientious efforts to save water resources. Use of Atmospheric Water Filters to be promoted.
- To provide training on energy conservation measures.
- To carry out Green Audit
