There should be more programs on communication skills.

To add MCom

Everything is perfect

More examples while teaching

Allow students to choose the subject according to their choice even though seats are full.

There should be more focus on how to actually apply the knowledge that we gain during the course. Also, learning to use basic softwares of collecting, managing and analyzing data should be made compulsory. Also, there should be more of sports and recreational activities to engage students.

Teachers should support students more

I want to thank all teachers I love u n Miss u lot god bless u all
